Sleek, Elegantly Designed, Premium Quality European Made Ceiling Panel Heaters

- **Cost effective and efficient**
- **Easy to install and low maintenance**
- **Long lasting and high resistance to corrosion**
- **Ideal for outdoor and indoor use**
- **Unbeatable 5 year warranty**

Comfortline Excel is an upgraded model of the Comfortline Original series setting an even further refined standard for the quality and workmanship behind these high temperature overhead heating panels. This new series of panels for both indoor and outdoor applications reflects over two decades of manufacturing and design expertise.

Designed for the zonal heating as they produce “spot” heat, with a range of temperatures allowing flexibility in the amount of heat that radiates downwards. You can create a comfortable environment perfect for hard to heat areas, such as cafes, patios and large open buildings.

Comfortline panels are perfect for ceilings from as low as 2.4m up to 15m, depending on the size of the heater. Please contact our team for more information regarding the installation of these units.
