Choose from our range of quality European Devireg Thermostats

Our premium range of Devireg thermostats are designed and manufactured in Denmark since 1942, providing ultimate programming flexibility with precise temperature setting. Proven quality and reliability with warranties of up to 5 years depending on the model for peace of mind. They are simple and easy to use and are specifically designed to work with Devi Floor Heating Cables, Mats and In Ceiling Heating Elements.

- Top quality, European-made, offering the highest levels of comfort and control
- Sleek, stylish design that fits perfectly into any modern design interior
- Floor probe with a built in air sensor to achieve extremely accurate temperature control
- User friendly programming to achieve your individual heating needs
- Hassle-free installation and ideal for both new build and renovation requirements
- Compatible with almost all frames and sensors and can be easily integrated into existing systems
- Approved to Australian Standards, with Australian switch plate included

Devireg Smart Fully Programmable Thermostat

With Floor Probe and built in Air Sensor

From \$369.00 Inc GST *

The Devireg Smart is a fully programmable, energy saving thermostat, ensuring precise heating comfort levels. Is easily controlled with a digital touch screen or remotely via Wi-Fi from anywhere through your smart phone for added convenience.

- The smartest, coolest looking controller on the market
- Simple, intuitive touch screen operation and easy menu navigation
- Fast and easy programming via set-up wizard and unique code option allow thermostat to be set up in seconds
- Wi-Fi Connectivity - Control heating from anywhere, at any time
- A single thermostat can be paired with up to 10 mobile devices using DEVI Smart App
- Can communicate with two mobile devices simultaneously
- Many energy savings features including fully flexible smart timer program, easy access button and a 7 day / 30 day / life time energy use readout for increased energy usage awareness
- Open window detection automatically switches off the heating
- Setup according to room and floor type, shortcut button for away, frost protection, timer –off and on mode
- Battery back-up (time/date - forever - consumption meter 24hrs)
- ***Colour Range Prices:** White \$369.00 Ivory \$389.00 Black \$399.00 Inc GST. ***Additional white or black frame \$9.90 per unit.**

- Resistive load: 16amp @230V
- IP 21 Suitable for bathrooms
- Unbeatable 5 year warranty

Devireg Touch Fully Programmable Thermostat

With Floor Probe and built in Air Sensor

From \$299.00 Inc GST *

The Devireg Touch is a fully programmable, energy saving thermostat, ensuring precise heating comfort levels. It is easily controlled with a digital touch screen.

- Simple, intuitive touchscreen operation and easy menu navigation
- Code system for remote troubleshooting
- Fast and easy programming via set-up wizard and unique code option allow thermostat to be set up in seconds
- Many energy savings features including fully flexible smart timer, easy access button and a 7 day / 30 day / life time energy use readout for increased energy usage awareness
- Open window detection automatically switches off the heating
- Setup according to room and floor type shortcut button for away, frost protection, timer - off and on mode
- Battery back-up (Time/Date-Forever - Consumption meter 24hrs)
- ***Colour Range & Prices:** White \$299.00 Ivory \$319.00 Black \$319.00 Inc GST
- ***Additional white or black frame \$9.90 per unit**

- Resistive load: 16amp @230V
- IP 21 Suitable for bathrooms
- Unbeatable 5 year warranty

Devireg OPTI Programmable Thermostat With Floor Probe and built in Air Sensor From \$219.00 Inc GST*

The Devireg OPTI is a programmable, energy saving thermostat designed to fulfill eco design directive. It is easily controlled with buttons placed below the screen

- Simple, intuitive easy button navigation for fast and easy setup
- Energy savings regulation program including weekly timer, low stand by consumption features.
- Open window detection automatically switches off the heating
- Battery back-up keeps user settings on standby for up to 60 days
- Always on, visible current room temperature
- ***Additional white frame \$9.90 per unit**

- Resistive load: 13 amp @240V
- IP 21 Suitable for bathrooms
- Colour white
- 2 year warranty

Devireg 132 Manual - Surface Mounted Thermostats With Floor Probe and built in Air Sensor \$159.00 Inc. GST*

The Devireg 132 manual thermostat consists of a simple, efficient and modern design, which ensures precise heating comfort levels.

- Easy to use as it offers the simplicity and basic features of a conventional dial thermostat
- Ideal for separate 24 hour time clock control of zones with time of use metering and can be used in conjunction with C-Bus or other home automation systems
- Dial for adjusting the temperature, with a scale from 5° C - 35° C and an LED indicating the current mode (heating, standby or fault)
- Surface mounted and comes with a white backing plate that can be mounted horizontally or vertically, which is the same size as a standard switch plate
- ***Additional white frame \$9.90 per unit**

- Resistive load: 16amp @240V
- IP 30 Suitable for bathrooms
- Colour white
- 2 year warranty

The Devireg 130 air sensing only manual thermostat is available for \$149.00 Inc. GST. With the same features list above except floor sensing probe.

Devireg 530 Manual Series - Semi-Recessed Mounted Thermostat With Floor Probe* and built in Air Sensor* From \$169.00 - \$189.00 Inc. GST*

The Devireg 530 series manual thermostats consists of a simple, efficient and modern design, which ensures precise heating comfort levels.

- Easy to use as it offers the simplicity and basic features of a conventional dial thermostat
- Ideal for separate 24 hour time clock control of zones with time of use metering and can be used in conjunction with C-Bus or other home automation systems
- Dial for adjusting the temperature, with a scale from 5° C - 35° C and an LED indicating the current mode (heating, standby or fault)
- Semi - recessed and comes with a white backing plate that can be mounted horizontally or vertically, which is the same size as a standard switch plate
- Additional features; double pole safety breaker, low standby consumption, sensor failure monitoring and led indication for fault
- ***Additional white frame \$9.90 per unit**

- Resistive load: 15amp @240V
- IP 31 Suitable for bathrooms
- Colour white
- 2 year warranty

Applications:

- **Devireg 530:** Comfort heating (floor sensor) Set point dial:
Numerical scale.
\$179.00 Inc. GST
Application : *Underfloor Inslab/ Inscreeed Heating.*
- **Devireg 531:** Room heating *(room sensor) Set point Celsius scale
\$169.00 Inc. GST
Application: Outdoor heaters and radiant heating panels.
- **Devireg 532:** Comfort heating for wooden floors
(floor and room sensor) Set Point Dial: Celsius scale
\$189.00 Inc. GST
Application: *Wooden floating floors, and other composite material flooring. Please check with flooring manufacturer.*

Please Note: When installing floor heating under floating timber floors, it is always recommended that you check with your supplier for compatibility with floor heating. If floor heating is installed the thermostat is not to be programmed to go above 27°C, as the timber could warp.
